## **DETAILED ACTION**

### ***Response to Amendment***

The amendment filed October 10, 2006 has been entered.

Claims 1, 13, 14 and 24-27 are currently amended.

Claims 11, 17, 19, 21 and 23 are cancelled.

Claims 28-30 are newly submitted.

Claims 1-10, 12-16, 18, 20, 22 and 24-30 are pending

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Rejections not repeated have been withdrawn.

### ***Election/Restrictions***

This application contains claims 2, 3, 15, 16, 18, 20, 22 and 27 drawn to an invention nonelected with traverse. Note that claim 27 is drawn to a desaturase, which is a non-elected invention and is also withdrawn. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claims 1, 4-10, 12, 14, 24-26 and 28-30 are examined on the merits.

### ***Specification***

The CRF filed with the response has been entered.

***Claim Objections***

Claim 30 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 30 is drawn to a nucleic acid of claim 28, which is at least 90% homologous with SEQ ID NO: 1. This claim reads broader than claim 30 on which it depends.

***Claim Rejections - 35 USC § 112***

Claims 29 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 29 is indefinite in the recitation of “standard hybridization conditions”, given that there are no hybridization conditions that are recognized in the art as “standard”, since the preferred conditions vary depending on the DNA sequence length and composition. In addition, the specification fails to define this term, and therefore the metes and bounds of the claimed invention are not clearly set forth.

Claim 30 is indefinite in the recitation of “nuclei”, which does not make sense in the context of the claim. Amendment of the claim to read “nucleic” would overcome the rejection.

The rejection of claim 23 and claims 24-26 dependent thereon is withdrawn in view of the cancellation of claim 23 and the amendment of claims 24-26 to depend on claim 1.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Claims 1, 4-10, 12, 14, 24-26 and 28 are in condition for allowance.
